

Polar Bear 5K Prediction Run

Ruth Hohnstein was the most accurate at predicting her time in the annual Polar Bear 5k Saturday, Jan. 4th.

The weather was about 25 degrees and the path was fairly clear of ice! Nine seconds separated the 10th place winner from first. The over half of runners DQed with times faster than their predicted finish. So close for many who did not get to receive the hand carved bears by Roger Heil.
